- Continuously Saw the "Seeds of Happiness".

Hybrid Cotton Seed

Kesari BGII

Rough and Tough hybrid with better environmental stability
Medium Maturity hybrid with good retention capacity
Suitable for rainfed as well as irrigated farming
medium to big boll with good staple length
Comparatively less leaf reddening
Highly tolerant to sucking pest
Excellent seed cotton yield potentiality

Kesari-14 BGII

Rough and Tough hybrid with better environmental stability
Early to Medium Maturity hybrid with erect plant
Suitable for rainfed as well as irrigated farming
Big boll with good staple length
Comparatively less leaf reddening
Highly tolerant to sucking pest
Excellent seed cotton yield potentiality
Suitable for closer planting

Divyashakti (CHB-5050) Hybrid Bajra

High productive tillers
Thick and compact earheads
Resistant to Downy mildew Disease
Excellent loaf making quality
Good Fodder yield
Suitable for rainy and summer season
Excellent grain yielding potential

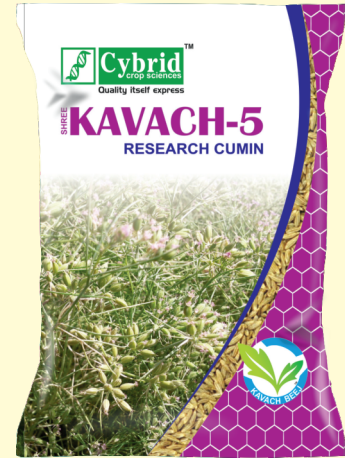

Power Hybrid Castor Seed

Long and Compact Spike
Medium maturity hybrid
7-10 effective branches per plant
High oil content with good test weight
Resistant to Wilt and botrytis disease
Good yielding capacity

Kavach-5 Research Cumin Seed

Basal Branching
4-6 primary branches/plant
15-19 umbels/plant
4-6 umbellets/plant
Wilt Resistant
Uniform Seed Size at maturity

Other Products

Research Moong : Kavach Bold
Research Urid : K-10
Research Till (Sesame) : K-55 & K-77
Research Tur : Signature
Research Coriander : K-80
Notified Groundnut Seeds : GG-2, GG-20, GJG-22, GAUG-10, J-11, TAG-24, TG-37, TPG-41, TLG-45

What Farmer says about us

Jayantibhai Mungalpara
Farmer, Gujarat

Kesari BGII is truly seeds of happiness. As it is a low management cotton seed with very low sucking pest infestation. This hybrid has a excellent farm economics.

Maganbhai Jatapra
Farmer, Gujarat

Kavach-5 is the best cumin seed available in the market. Plant have more branches and uniform seed maturity yields highest in my village and shown best wilt resistance. I will recommended Kavach-5 to others.

Farmer, Gujarat

Power is really a powerful castor hybrid. Very few sucking pest I observed with compact and long spike. Seed weight is the key to yield. No plant wilting is observed.

Kesavji Mithaji Jabok
Farmer, Gujarat

Kesari-14 hybrid cotton is a real miracle. Big boll with early maturity is the power point. Very few sucking pest and excellent seed cotton yield.

Girdharbhai Dadhaniya
Farmer, Gujarat

Kesari BGII is a rough and tough hybrid which can sustain in all environmental stress. Less sucking pest with profuse flowering with good staple cotton is the winning point.

Farmer, Gujarat

Divya Shakti hybrid bajra is a high yielding hybrid with good fodder quality. Loaf making quality is best and resistant to Downey Mildew disease.

**Plant the Seeds of Happiness,
Hope, Success and Love;
it will be come back to you
in abundance.
This is the Law of Nature.
